

How to Connect to Campus Wi-Fi

The Wi-Fi service in TUS is called Eduroam (short for educational roaming).

Most modern laptops and smartphones should connect to Eduroam without any issues.

All staff & students need to enter these details to connect to Eduroam:

Username: staff or student email address e.g. a00123456@student.ait.ie

Password: Your computer account password (not your Registration account PIN)

If you are experiencing trouble connecting to Eduroam on an Android phone (or a laptop), you should follow these instructions:

1. Visit <https://cat.eduroam.org> to download the latest Wi-Fi drivers to your device (before coming on Campus, if possible).
2. Click the blue box as shown in the image below.

3. Select AIT from the dropdown list
4. Click to download the installer
5. Click Run
6. Click save file

This should assist with ensuring Eduroam works on your device.

On Campus IT Facilities - Wi-Fi (Eduroam)

TUS Wi-Fi
(Eduroam)

Personal devices (laptops/tablets/phones)

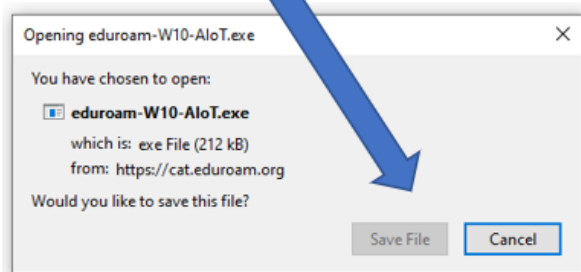

Visit <https://cat.eduroam.org> to download the latest Wi-Fi drivers to your device (before coming on Campus)

Username: a00xxxxxx@student.ait.ie
Password: Your current password

4. Click Run

5. Click Save File

1. Click here

2. Select AIT

3. Click to download the installer
